Subj.: Certifications of Approval
Ref. #: MIA0/201715050830/WAS

Dear Sirs,

The review of your Quality Assurance System submittals and an audit of your facilities on 09 March 2017 been satisfactorily completed. **In accordance with IACS approval procedures, in order to complete certification of the Company, the following remains outstanding:**

- **Practical demonstration of the performance of an in-water survey and review or the reporting**

In view of the above, the company has been provisionally approved pending the witnessing of an in-water periodical survey by a Bureau Veritas Surveyor and a satisfactory review of the presented in-water survey report.

Kindly accept this preliminary approval letter and present it to clients when awarded future contracts. At its own discretion, BUREAU VERITAS may withdraw its approval and invalidate the Attestations, for the following reasons:

- Where the service was improperly carried out or the results were improperly reported;
- Where a Surveyor finds deficiencies in the approved service operation system of the supplier and appropriate corrective action is not taken;
- Where the specialist fails to inform BUREAU VERITAS of any alterations in procedures;
- Where willful misrepresentations or omissions are ascertained.

BUREAU VERITAS reserves the right to cancel the approval and to inform the IACS Members accordingly. Should your approval be canceled, you may apply for re-approval after corrective actions for the reasons for cancellation have been implemented to the satisfaction of BUREAU VERITAS.

The Specialist is not a sub-contractor of BUREAU VERITAS and is not to be considered an agent of BUREAU VERITAS for any purposes. BUREAU VERITAS approval does not relieve the vessel's Owner, Operator, or any other party who contracts with the Specialist for its services, from their responsibilities concerning the services. The Specialist remains solely responsible for its equipment; the qualification and competency of its personnel; their supervision; and their safety while performing its services.

Best Regards,

Wade Stoner
